

CONTRACTORS OF SBEC

All contractor vehicles will be identified with the EXO logo as well as a "Contractor for San Bernard Electric Cooperative" decal. Contractors will arrive in marked trucks and will most likely be in an All-Terrain Vehicle (ATV) as they drive through properties for inspections.

What a typical EXO Contractor will be wearing in the field.

Please do not remove any tags that are placed on poles. These will provide the information on what poles need to be replaced and which poles are good. This tag is to keep our linemen safe and help prevent potential outages.
