METER LOOPS FOR SALE

San Bernard Electric Cooperative, Inc. is now offering meter loops for sale. These meter loops are pre-assembled meeting SBEC's specifications for meter pole and transformer pole locations. The meter loop is built with a Siemens feed through breaker panel with a main disconnect breaker installed and a bus bar to accept eight (8) breakers. These breaker panels accept other name brand feeder breakers such as new GE wide, Square-D Homeline, Westinghouse, ITE, Cutler Hammer new style, and others. These breaker panels will not accept FPE, Zinsco, narrow GE, and Square-D 'QO' breakers. SBEC will offer a one-year warranty on workmanship and materials. The following prices are effective as of 9-1-2011.

| Qty. | Meter Loop sizes available for sale: | <u>Cost</u> | <u>+</u> | <u>Tax</u> | <u>=</u> | <u>Total</u> |
|------|--|-------------|----------|------------|----------|--------------|
| ___ | 100 amp. meter loop for 25 ft. meter pole ----- | \$245.00 | + | \$20.21 | = | \$265.21 |
